

38,435,153 FLAT-FOOTED  
WOMEN AND GIRLS IN U. S.Experts Who Have Studied Female  
Pedal Extremities for Years  
Say So, and They Blame Mothers.

(Special to The Evening World.)  
PHILADELPHIA, March 21.—Ap-  
proximately 38,435,153 women and  
girls in the United States are flat-  
footed or have broken arches, and  
mother is to blame if the statement  
of a group of Philadelphia foot ex-  
perts who have studied the feminine

pedal extremities for the last twenty-  
four years are to be believed.  
They say the American mother who  
insists that her growing daughter  
be kept in flat heels, when the foot  
has developed as it needs a slight  
heel, is responsible for the condition.  
They also blame mothers for not  
educating their grown up daughters  
to ask for shoes that fit and encour-  
aging the habit of "style at any  
price."

**Policeman Overcome by Gas.**  
Sergeant Charles Conahan was ac-  
cidentally overcome by gas today in his  
room in the Madison Street Police Sta-  
tion. He was unconscious when taken  
to Gouverneur Hospital. Conahan is  
forty-two years old and lives at No. 55  
West One Hundred and Seventy-ninth  
street. His condition is not serious.

MOTHER AND BABY  
ACQUITTED OF THEFT  
CHARGE IN MOVIEMagistrate Throws Out Case  
Against Woman and Five-  
Year-Old Child.

LOCKED UP ALL NIGHT.

Unsubstantiated Word of Com-  
plainant Accepted by the  
Police in Case.

Mrs. Frances Smith, a young house-  
wife, of No. 316 East One Hundred  
and Twenty-sixth Street, and her  
five-year-old son, James, were dis-  
charged from custody in Harlem  
Police Court today by Magistrate  
Frothingham, who could find no basis  
for the charge, preferred by John M.  
Jacobi of No. 306 East One Hundred  
and Twenty-third Street, that the  
little boy had stolen \$12 from him  
and passed it along to the woman.  
Mrs. Smith, however, had spent the  
night in a cell in the East One Hun-  
dred and Twenty-sixth Street station  
and her little boy had been cared for  
by the Children's Society.

Officers of the Children's Society  
investigated Mrs. Smith's character  
in her neighborhood. They found her  
to be the mother of three children,  
hard-working and respectable. Her  
arrest was denounced by all who  
knew her.

The arrest was a peculiar affair,  
illustrating how easily an innocent  
person may be suddenly deprived of  
liberty in this town on the unsub-  
stantiated word of any other person  
either honestly mistaken or mali-  
ciously inclined.

Mrs. Smith took her little son to  
the moving picture show at No. 2314  
Third Avenue last night. The boy sat  
between his mother and Jacobi, on  
Jacobi's left. Suddenly Jacobi grabbed

the boy's hand, squeezed it and said  
to Mrs. Smith:  
"This boy has just stolen \$12 from  
me and passed it to you."  
Mrs. Smith indignantly denied the  
charge. Jacobi ran out of the theatre  
and called Policeman McDonough,  
who summoned Mrs. Smith and her  
child to the lobby. Jacobi insisted  
that he boy had taken \$12 from his  
left trouser pocket and passed it to  
Mrs. Smith.

"I won't make an arrest in this  
case," said McDonough, "but if you  
want to arrest her I'll accompany you  
to the station house."

Jacobi placed Mrs. Smith under ar-  
rest and took her and the boy to the  
East One Hundred and Twenty-sixth  
Street Station. Mother and son were  
thoroughly searched by a matron.  
Only a little change was found on  
Mrs. Smith. In the meantime, the  
society of the seat she had occupied  
in the moving picture house had been  
searched without bringing Jacobi's  
\$12 to light.

In Jacobi's uncorroborated word  
the lieutenant in charge ordered Mrs.

Smith locked up and sent the child  
to the Children's Society. Jacobi  
wanted to make a complaint in the  
police court today, but Magistrate  
Frothingham refused to allow it.  
Mrs. Smith is only twenty-three  
years old. The two children who  
were deprived of her care and com-  
panionship last night are younger  
than five-year-old James.

TRAPPED AS BLACKMAILER.

Young Man Seeks to Make Old  
Friend of \$5,000 Cash Money.

As he walked out of the Public Bank  
at Twenty-sixth Street and Broadway,  
this afternoon, Henry Krutner was ar-  
rested for attempted blackmail. In his  
pocket was \$500 which he had obtained  
on a check at the bank. He dropped  
four notes for \$1,000 he had received  
a few moments before, but finally ad-  
mitted receiving them.

Krutner was trapped by James R.  
Sanders, president of the Maritime  
Investors' Company, of No. 300 Fifth  
Avenue. The two men had been friends  
for twenty-four years and lived

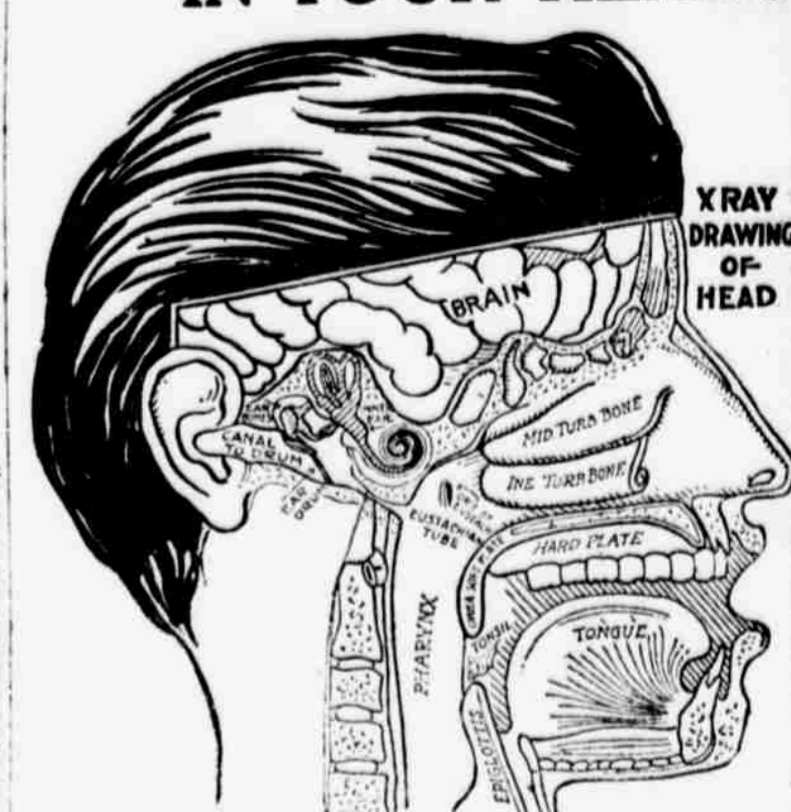

at No. 204 Fourteenth Street, Brooklyn.  
Krutner told Mr. Sanders he had letters  
showing the financial condition of Mr.  
Sanders, which he would make public  
unless he received \$5,000. Mr. Sanders  
gave Krutner three checks for \$2,000 and  
advised to meet him today in the Public  
Bank and deliver the remainder of the  
money. Detectives Larkin and Burgess  
were there when Krutner arrived.

Krutner was taken to Jefferson Market  
Police Court. He said that he must  
have been crazy to attempt such a thing,  
but that he was hard pressed for money.

IS YOUR TROUBLE  
IN YOUR HEAD?

The above diagram shows one nostril, the hollow places in-  
side your head, the brain and the tube leading to one ear.

WHY IT  
IS RISKY  
To Have Clogged Nostrils

The inside of the lower part of your  
head is hollow and holds the things  
you think with, hear with, taste with,  
smell with, talk with and act with.  
If you think right, see right, hear  
right, smell right, taste right, talk  
right and act right, you will amount to  
something. The only difference be-  
tween the employer and his hired help  
is the difference between the working  
of their thinking and acting machinery.

If your nostrils are clogged the air  
does not circulate through your head  
as it should and the result is your  
brain is not cooled. A hot brain will  
not work right. With such a brain you  
do not rest well at night, but get up  
tired and sleepy and stupid. You can-  
not collect your thoughts, cannot con-  
centrate your mind on your work. The  
discomfort and misery of clogged no-  
strils is great. When your nostrils are  
stopped up you must keep your mouth  
open to get enough air. Breathing with  
the mouth open changes the expression  
of the face. Those with clogged no-  
strils soon develop a dull, stupid look in  
the face.

Catarrh sufferers often have a feeling  
of heaviness or deep dull pain across  
the forehead and in the temples. This  
feeling is not only annoying but may be  
so severe as to prevent the proper ac-  
tion of the brain.  
In most cases of clogged nostrils there  
is considerable discharge poured out.  
This discharge may be watery and thin  
or it may be tough and sticky. It may be  
the nostrils, or it may drop back into the  
throat and stick to the back of the  
throat.

In others with catarrh the discharge  
drips up in the nostrils and forms vis-  
cidous or brown crusts and again. This  
dried discharge cannot be expelled by  
blowing the nose, but remains in the  
nostrils and may cause deafness. The  
tough discharges drying in the nostrils  
collect all sorts of germs that may be  
in the air. The germs cause the dis-  
charges to decay. This gives the  
breath a bad odor.

In many cases clogged nostrils bring  
on asthma. In others they cause pain  
in various parts of the head. In others  
it causes dizzy spells. In still others it  
causes head noises, deafness or dis-  
charging ears.

Operation on  
Jeffries's Nostrils

Mr. James J. Jeffries, the famous pugilist,  
went all the way to Europe to have his nasal  
passages operated on. The operation was  
performed by Dr. J. C. McCoy, of New York.  
Mr. Jeffries's nose was so badly injured  
that he was unable to breathe through it.  
He was forced to breathe through his mouth  
and this caused him great trouble. He was  
unable to sleep and his health was  
suffering. He was forced to leave his  
home and travel with him. He was  
unable to work and his life was in  
danger. He was forced to have the  
operation and he was cured.

Clogged Nostrils, Dropping  
in Throat, Deafness  
and Head Noises

Mr. Robert Allen resides at No. 111 East  
New York. When he first consulted me  
he said: "I have been suffering from  
clogged nostrils for many years. I am  
unable to breathe through my nose. I  
am forced to breathe through my mouth  
and this causes me great trouble. I  
am unable to sleep and my health is  
suffering. I am forced to have the  
operation and I am cured."

WITH THE LOW OFFER MY TREAT-  
MENT WILL REMAIN THE SAME AS THE  
TREATMENT WAS WHEN MY FEE WAS  
HIGH.

To following interview with Prof. Loomis will  
explain what he thinks of me:  
(New York World, Nov. 2, 1904.)

NOSTRILS CLOGGED, SENSE OF  
SMELL LOST.

When Mr. J. M. Loomis consulted me he  
said: "My sense of smell has been lost for  
many years. I am unable to breathe through  
my nose. I am forced to breathe through  
my mouth and this causes me great trouble.  
I am unable to sleep and my health is  
suffering. I am forced to have the  
operation and I am cured."

Since treating Mr. Loomis, he reports that  
his sense of smell has been restored and  
that he is able to breathe through his nose  
and that his health is much improved.

Attended by Dr. J. C. McCoy, at 150 Bond Avenue,  
New York City, N. Y.
